
CLEVERPARK

The classic all-rounder

BAUWERK®
Parquet

CLEVERPARK

Cleverpark planks, available in two different lengths, suit every room and offer a diverse range of colours, wood types, surface treatments and installation options. The longer version can also be installed with the innovative Silente technology.

CLEVERPARK 900 Oak Mandorla 34, Laying pattern 12

Cleverpark

CLEVER MEETS CREATIVE

The Cleverpark formats are an ideal solution for every taste and every living situation. Be it a compact children's room in the classic ship deck pattern for a cosier mood, or a spacious loft with something more creative, Cleverpark is always an eye-catcher.

Classic and creative patterns

Long planks impress with the large variety of classic and creative patterns for a very personal room experience! Whilst the 1250 mm long plank is commonly installed in the popular ship deck pattern, the 900 mm Cleverpark plank is the longest plank in our range that can be used for the herringbone pattern. With its clever 1:9 dimension ratio, it can be used for many other classic and modern laying patterns.

Cleverpark 900 – 900 × 100 × 9.5 mm
Cleverpark 1250 – 1250 × 100 × 9.5 mm

CLEVERPARK 900 Oak Caramello 34, Laying pattern 1

CLEVERPARK 900 Oak Farina 14, Laying pattern 14

LAYING PATTERNS

Cleverpark can create very different visual effects and produce any kind of aesthetic in a room, from a shipdeck classic look to a more creative pattern. The long plank wields the full potential of the traditional art of parquet laying and brings creative variety to the floor.

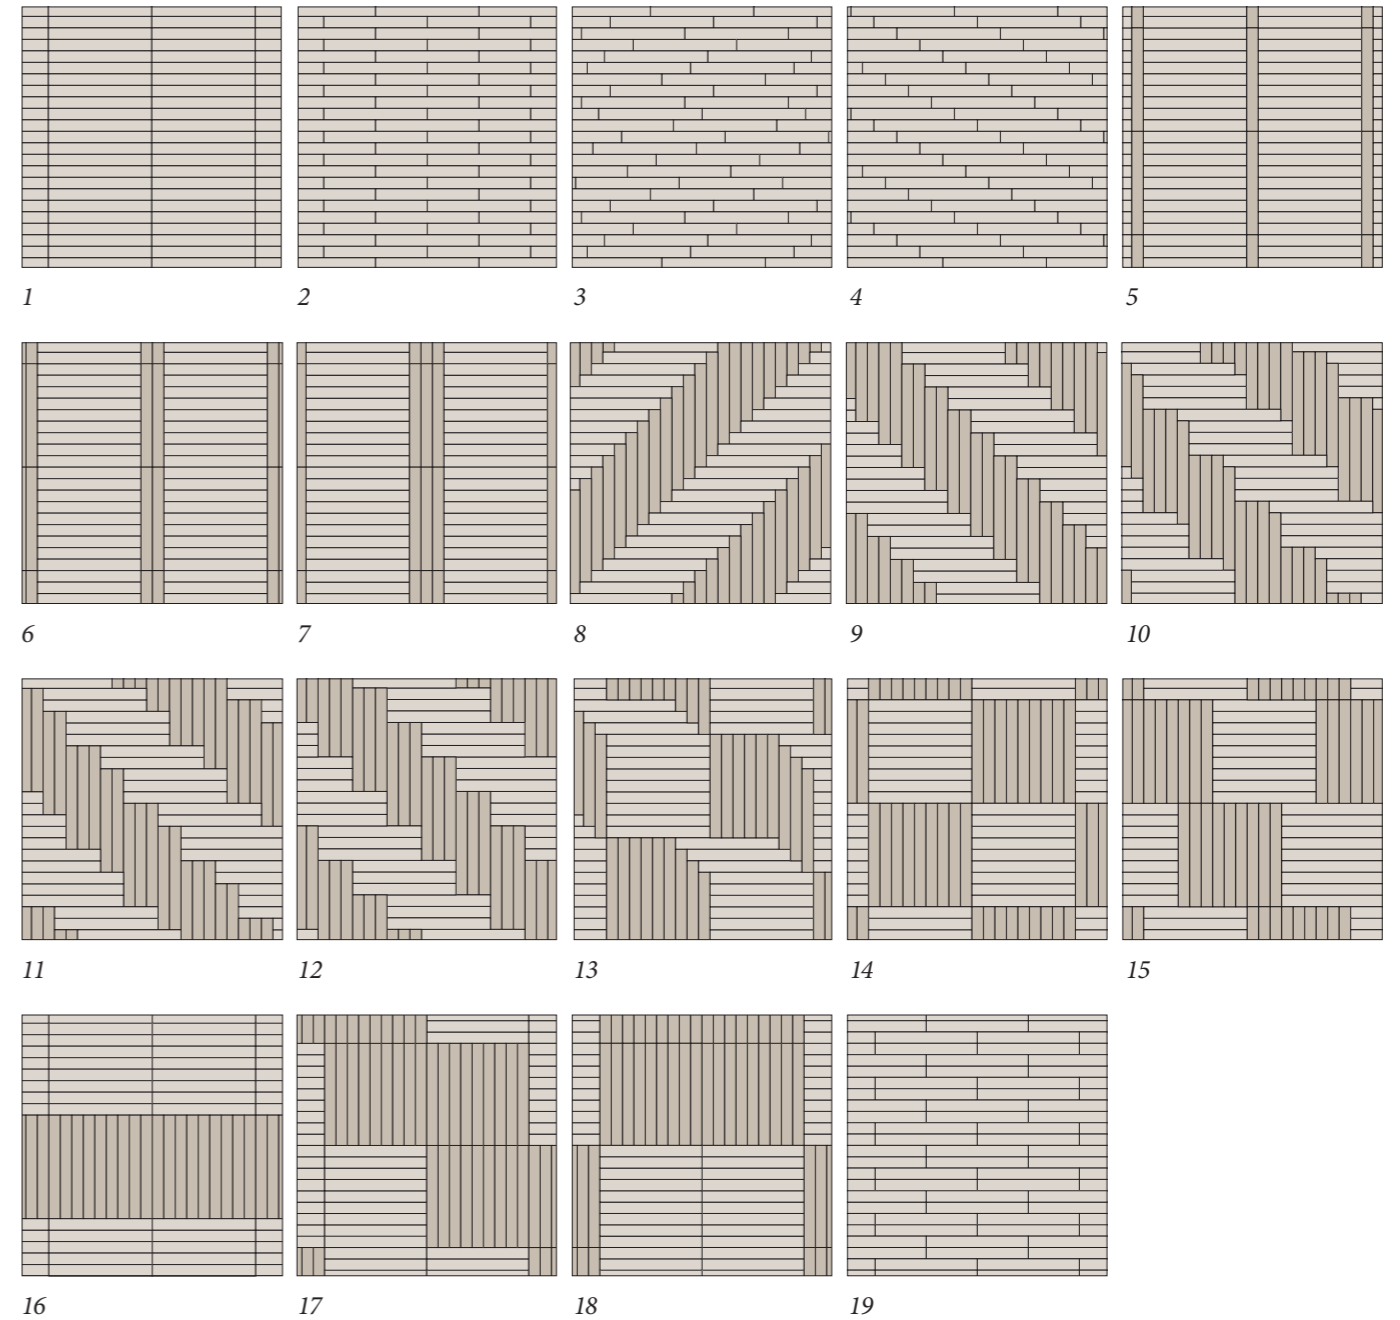

Our longest herringbone planks

The 900 mm long Cleverpark plank is the longest parquet plank in our product range that can be used to form a herringbone pattern. For some time, herringbone has enjoyed a big revival, and is the prime discipline for parquet installers. Whether integrated into a classic old building look or reinterpreted from a modern perspective, the exquisite arrow-shaped pattern creates a refined and unique appearance and results in interesting lighting effects. This way, parquet becomes a real eye-catcher in the room.

Clever creativity

Thanks to its elegant 1:9 dimension ratio, Cleverpark 900 works well not only with herringbone but many other classic and modern laying patterns such as parallel ladders and cubes.

And which is your personal Cleverpark 900 laying pattern?

CLEVERPARK 1250 Oak smoked 14, Laying pattern 5

Cleverpark 1250 Silente

SILENT AND SUSTAINABLE

As an additional option, Cleverpark 1250 is also available with innovative Silente technology. This provides a sound insulation mat that significantly reduces walking and impact sounds. For a pleasant working atmosphere in open-plan offices and a quieter life with children in multi-storey buildings.

The innovative system solution

The Silente technology by Bauwerk Parquet is an innovative system solution that guarantees reduced ambient sound and optimum impact sound improvement thanks to its successful combination of parquet with the Silente ambient and impact sound insulation. Cleverpark 1250 Silente comes with the underlay already attached.

A circular product

The use of Silente technology is ideal for both new construction and renovations. The Silente ambient- and impact sound insulation underlay does not age and acts as a separating layer, facilitating swift and easy dismantling if the floor is to be taken out. The underlay is odourless and free of unwanted emissions, creating a healthy living environment. Cleverpark 1250 Silente is also Cradle to Cradle® Gold certified – synonymous with circular economy and the highest sustainability and health standards.

COLOUR OVERVIEW

The versatility of the healthy living Cleverpark parquet, which is produced at the Bauwerk headquarters in St. Margrethen, is unique and offers the ideal solution for every taste and every living situation. Cleverpark is representative of high-quality workmanship, precision, the careful use of resources and the most stringent quality controls – plus, real value for money.

Cleverpark 900 & Cleverpark 1250

HEALTHY FOR PEOPLE & NATURE

The planks create a harmoniously smooth overall look and the brushed finish makes them pleasant to walk on barefoot. Cleverpark is based on HDF technology with a resource-efficient 2.5 mm-top layer.

Powerful and durable

With its full-area bonding, the plank ensures a footfall as quiet as a whisper and optimal use of energy with floor heating systems. The HDF technology combines high performance with minimal use of natural wood resources.

All Cleverpark products are produced in Switzerland, are tested by independent institutes and perfect for healthy living.

In 1935, Ernst Göhner brought the idea of solid parquet to series production before founding Bauwerk Parkett in 1944. Since then, Bauwerk has been researching, developing and manufacturing innovative, aesthetic parquet solutions of the highest quality with great passion and Swiss precision. Original parquet floors from Bauwerk, one of the leading parquet manufacturers in Europe, offer the unique feel of a piece of real nature that provides tangible warmth and healthy living for a perfectly balanced atmosphere in any room. *bauwerk-parkett.com*
